## Radius Gold reports Plata Verde drill results

Vancouver, British Columbia – Radius Gold Inc. (TSXV: RDU) (“Radius” or the “Company”) reports final drill results for the Plata Verde silver project in Chihuahua, Mexico. Drilling was funded by Minera San Julian, S.A. de C.V. (“Minera San Julian”), a wholly owned subsidiary of Fresnillo plc (“Fresnillo”).

The Plata Verde drill program comprised 13 holes for a total of 2400m of diamond core drilling. The drill holes cut several zones of low-grade silver mineralization, but unfortunately did not intersect zones of significant silver mineralization. Due to the limited economic potential, Minera San Julian has withdrawn from the partnership and Radius is in the process of returning the property to the underlying owners.

### Other Projects

Radius is in the final stages of acquiring an option on the Tierra Roja copper project in Peru (see press release dated September 9<sup>th</sup>, 2024) and expects to provide an update in the next weeks. The Company also continues to evaluate opportunities to generate shareholder value from its Amalia gold-silver joint venture with Pan American Silver Inc. and Holly Gold project joint venture with Volcanic Gold Mines Inc.
